

## PROGRAM OUTCOME UNDER CCF

**Under CCF (NEP) the college offers the following course-**

❖ **4 Year B.A. (Honours and Honours with Research)** in Bengali, English, Education, Geography, History, Philosophy, Sanskrit.

- a) Graduates of the B.A. Hons Programme at this institution are anticipated to cultivate analytical prowess, equipping them to tackle complex issues at the next academic level.
- b) Although students may encounter initial challenges in their language proficiency upon enrolment, by the program's conclusion, they are poised to proficiently articulate their subject comprehension.
- c) Students enrolled in this program will attain the ability to pose incisive inquiries, critically evaluate scholarly presentations in any format, and engage in informed debates that invite multifaceted discussions.
- d) Graduates of this program will skilfully connect societal and national issues to the knowledge acquired from their textbooks and classroom interactions.
- e) Engaging in project work and field studies provides them with experiential learning opportunities, enabling them to experiment with the theoretical knowledge they've acquired within the confines of the classroom.
- f) Upon program completion, students emerge with a newfound confidence, believing in their employability.
- g) This institution trains students to undertake foundational research, igniting their motivation for advanced research when they pursue higher education.
- h) The program instills in students a profound sense of values, fostering their development as exemplary citizens of their nation.

❖ **4 Year B.Sc (Honours and Honours with Research)** in Mathematics, Physics, Chemistry, Botany and Zoology.

The broad program outcomes of these programs and courses are as follows:

- a) Graduates of this program emerge as adept practitioners of hands-on activities.
- b) Students acquire familiarity with the latest scientific trends and developments taking place in their field and its surroundings
- c) Graduates become a valuable workforce, affording them the option to pursue employment opportunities or additional training courses if they desire.
- d) Students gain a heightened awareness of the expansive nature of knowledge within their respective fields, enhancing their eligibility for admission to the nation's premier institutions

e) This program also cultivates a proclivity for research within the minds of these budding scholars, motivating them to undertake projects in esteemed laboratories across the country after program completion.

f) Students refine their investigative skills, enabling them to unlock the doors to the vast realm of future knowledge.

g) A pivotal outcome of this program lies in its ability to instill higher life values in its students, equipping them to confront any challenges that the future may bring.

❖ **4 Year B.Com. (Honours and Honours with Research)** in Accountancy

Upon the successful completion of a degree course in B.Com (H), the graduate will be able to:

a) Demonstrate a thorough knowledge of organizational behaviour, and undertake critical analysis of organizational problems and generate solutions to the same.
